

**We are Hunting Harmful Animals.
Please be Careful When Entering Mountainous Areas!**

Wild animals like boars and deer have been causing damage to farmland in mountainous areas and around the city center by eating agricultural produce, etc. In order to prevent this damage, the Hunting Association and others are hunting harmful animals using guns and traps.

Please be careful of the following points when hiking:

- If you see a hunter, call out and make your presence known. They can be identified by their orange hats and vests.
- Trap signs (わな設置標識, *wana setchi hyoshiki*) indicate that there are traps on the ground ahead. Please do not step in one by accident.

*Traps will not be placed on hiking trails

We ask for your cooperation in preventing accidents
