

# Let's Build an Intercultural City, Together.

## Shizuoka City Promotion Plan for Intercultural Cohesion 2023 - 2030

**Intercultural city** : A city in which all people respect each other's cultural differences, help each other, learn from each other, and act together, utilizing each person's individuality.

### Objective of the Plan

The city's diverse residents will interact and collaborate for the realization of an intercultural city, developing a city in which everyone can live comfortably.

## 4 Important Initiatives (Pillars)

### 1

#### Developing a Comfortable Living Environment

- We will offer administrative information in simple Japanese and other languages.
- We will improve multilingual consultation services.
- We will provide the necessary orientation and support for life in Shizuoka City.

### 2

#### Creating Opportunities and Spaces for Education

- We will improve education regarding the understanding of diverse cultures and lifestyles within school education and lifelong learning.
- We will increase mutual learning that transcends nationality.
- We will improve support and Japanese education for those that have difficulty with Japanese.

### 3

#### Facilitating Exchange within Communities

- We will work to improve communication within communities.
- We will facilitate mutual learning, cooperation, and social participation.
- We will increase opportunities for people of diverse cultures to interact.

### 4

#### Creating Partners to Help Realize an Intercultural City

- We will foster the human resources to create an intercultural city.
- We will promote networking and mutual learning.
- We will move ahead with collaborations between residents, businesses, groups, and government.
